*small* THE NEXT  
BIG THING

IN HEALTH-TECHNOLOGY, IS HERE...

The e-OPD

Leverage technology that allows us to put a fully-featured health clinic on your desk.

powered by

**Healphi**™  
CONNECTED HEALTHCARE PLATFORM

8 simple gadgets powered by next-gen tech are all you need to avail and provide world-class healthcare, remotely.

The e-OPD is a fully-featured, easy-to-set-up, portable, digital clinic. It can easily fit on to your desk and is enabled by 8 simple, digital gadgets, connected to the Internet of Medical Things (IoMT). You also have the option of additional gadgets.

Once set up, the e-OPD enables a remote doctor to monitor the patient very closely. Check-up results are then sent to our powerful AI-database for the generation of a detailed health report which can be used by the doctor for evaluation & diagnosis. The e-OPD is the perfect, compact solution for portable diagnosis & connected healthcare.

### Our e-OPD Comes in 3 Variants

Kiosk-Premium

Clinic in a Box

Clinic in Your Pocket

Physical  
Social  
Emotional  
Intellectual

### CHECK-UPS

ENT  
Respiratory  
Cardio-vascular  
Bone/Muscle, etc.

### vDOCTOR

Online Consultation  
24/7 Availability  
From Any Location  
On Any Device

## AI-ASSISTED DIAGNOSIS

AI enables us to provide an integrated healthcare solution which improves health-access and the proactive diagnosis of NCDs & other diseases. Various operative modes of the e-OPD, enable health authorities to address several issues regarding the accessibility of healthcare in rural areas, especially since the platform allows live, remote monitoring and does not require physical, paramedic assistance.

## APPLICATIONS OF THE DIGITAL CLINIC

- Hospital Kiosk
- Pharmacy Kiosk
- Office/Corporate/School Kiosk
- Emergency Clinic
- Doctor's Chamber Kiosk
- Remote Village Clinic
- Health Data Collection for Administration & Distribution
